RUSSELL HAM STANDARD WARRANTY COVER

Warranty covers three months or 2,000 miles from the time of purchase, whichever occurs soonest.

Although no warranty covers all eventualities of mechanical failures, every effort will be made to assist you should you experience any unexpected problems.

Any warranty claim must start by contacting our repair centre on 01752 561905 and discussing your issues as soon as you become aware of the fault. A member of staff will discuss your issue with you and try to resolve the fault in a convenient and timely manner.

The warranty covers the mechanical failure only of the major vehicle components, being engine, gearbox and clutch. This is a mechanical breakdown warranty and therefore does not apply to wear and tear defects involving the gradual breakdown or deterioration of parts consistent with the age, mileage and usage of the vehicle.

All warranty work has to be carried out at our repair centre including fault diagnosis. Cover does not extend to costs incurred following any work carried out by a third party during the warranty period.

This warranty does not offer any recovery service or cover any costs that may be incurred in the event of a breakdown.
